UA Construction Engineering Management Student Will Vail Awarded the 2019-20 Heavy Civil Scholarship from the Beavers

Congratulations to Will Vail on receiving the Beavers Scholarship for UA civil engineering students pursuing careers in heavy civil construction. The Beavers was founded in 1955 as a heavy civil construction association. “The purpose of the Beavers is to promote goodwill, friendliness and consideration within the heavy engineering construction industry; to give recognition to those men and women who have demonstrated particular skill, responsibility and integrity; and to encourage and support entry of promising young individuals into heavy engineering construction.”

Will helped launch and is president of the Associated General Contractors (AGC)-UA Chapter. In addition to taking courses in Construction Engineering Management, Will has participated on teams for the National Design-Build Institute of America student competition and the ASC-Reno competitions in heavy civil and design build. Will has interned for Ashton and Granite Construction.
