

Lissette Flores, 2017 DBIA WPR Scholarship

This scholarship recognizes construction students with academic ability and demonstrated interest in Design-Build. In addition to the \$4,000 scholarship, Lissette and nine other scholarship recipients traveled to Newport Beach, CA for the May 18, [2017 DBIA Awards Ceremony](#).

Lissette stated, “The DBIA event was amazing, I had the opportunity to connect with people from all over the industry ... My favorite part was being exposed to all the different awards DBIA gives to Design Build projects. I also had the opportunity to connect with young professionals within DBIA, and I'm looking forward to joining these groups of young professionals in the future. The overall experience was really great, I hope more of our students have the opportunity to attend events like this!”
